

Algorithmic Predictor Report: AAPL

Generated: 2026-05-03 09:33:22

1. Final Verdict

Verdict: HOLD

Buy Probability: 0.55

Confidence: 1.00

Reasoning:

Algorithmic analysis yields a HOLD verdict with a 55% bullish probability score based on the confluence of Trend (SMA), Momentum (RSI), and MACD indicators.

Key Factors:

- Bearish Trend: SMA-50 is below SMA-200 (Death Cross territory)
- Short-term Bullish: Current price is above SMA-50
- Neutral Momentum: RSI is 69.31
- Bullish Momentum: MACD is above Signal line

Risks:

- Algorithmic trading carries systemic market risks
- Past performance does not guarantee future results
